

GLOBAL HEALTH CONNECTOR PARTNERSHIP SUMMIT @ ViVE

9 March @ 9:30h EST.
Hybrid - Miami

The Global Health Connector Partnership (GHCP) reflects a determined commitment of existing global organisations to improve health and care for citizens worldwide through the appropriate use of digital technologies in the provision of health and care services.

Under the theme "Data and Digital Services to Support the Recovery of Healthcare Systems Globally" the experts will be able to pursue solutions to shared problems and discover areas of work via aligned strategic goals for further cost efficiency, reduced risk, and less effort.

We have convened a host of international speakers from:

AFRICA

AUSTRALIA

FRANCE

INDIA

SLOVENIA

SPAIN

UK

USA

Topics covered in the agenda:

Data and Digital Services to Support the Recovery of Healthcare Systems Globally

Emerging Global Picture: Architecting Data and Applications based on our Covid Experience

The Digital Health Strategy for Catalonia/Spain: advancing towards common semantics

The Global Health Connector Partnership
