CLINICO represents an important point of reference in the Emilia Romagna region for the quality of the health services provided in different health areas, in fact, it offers a multidisciplinary service (specialist visits, medical tests for an accurate diagnosis of the various pathologies, some activities promoting the psychophysical well-being of the person, pediatric activities for children from 3 months to 6 month and others), customer satisfaction and professional hospitality (patient centered and integrated care).

Moreover, CLINICO could be engaged, not only in patient care activities, but also in promoting innovative approaches to helping people to maintain good physical and mental health despite environmental, climate and social challenges through several prevention activities.

CLINICO was deeply affected by the covid-19 pandemic; for this reason, it could also be possible to carry out different research activities to evaluate the consequences and the impact of covid-19 at a local and regional level in taking into consideration also other health facilities.

It can give its contribution in terms of innovative technology and develop of innovative solutions to support health policy makers in ensuring access to innovative, sustainable and high-quality health care.

Citizens, patients, doctors, and all relevant stakeholders will represent the main element on which it will be possible to calculate the necessary indicators to measure performance and progress towards the relevant expected outcomes.

CLINICO could also represent a relevant center from which it will be possible to involve other regional and national stakeholders in promoting a dissemination and evaluation activity for the expected outcomes.
